Description

In the bay of Punta Chiarito, during the excavations some finds came to light that show that in the eighth century BC. The Greeks planted the first imported vine seeds from the Hellenic peninsula here. For almost three thousand years the vines have been cultivated in this suggestive area; the Impagliazzo family in continuing this centuries-old tradition produces this wine with an intense straw color, a pleasant aroma and the right body.

It is excellent as an aperitif and goes perfectly with all fish dishes. It is recommended to serve it fresh, at a temperature of 8/10 °
