Description

Masculine gel with medium viscosity Hyaluronic Acid with a shock effect. It gives an immediate result thanks to the active Anti-Age ingredients present in this cosmetic, which reduce wrinkles and improve the ability to retain hydration. The skin is smoother, more compact and extremely hydrated.

How to use: after shaving, we recommend spraying Ischia Fresh After Shave, letting it dry and applying a few drops of Anti-Age Masculine Strong Filler, massaging it until it has been absorbed by the epidermis. We suggest completing the daily treatment by immediately applying Anti-Age Masculine Cream.
