Manufacturer [Ischia Thermae](#)

Description

The particular mud, the original island of Ischia, supports the natural process of exfoliating the skin, removing dead cells and impurities from the skin surface. The special formulation means that mud, together with its precious exfoliating properties, acts as a stimulant for cell renewal and microcirculation. It acts as a moisturizing and firming action. Prevents the skin from absorbing better and faster the subsequent treatments.

Supplied with the practical sauna effect trousers, to enhance the mud's effectiveness and as a practical cleaning element. Sludge container suitable for heating in bain-marie.

TYPE OF SKIN

All skins

APPLICATION

Preferably in the morning: after the bath or shower, apply the mud on the dry skin of the problem areas. Allow to dry for 10 to 15 minutes. To enhance the effectiveness, use the sauna effect pants. Rinse thoroughly with lukewarm water. Continue applying the Ischia Thermae Fitness Anti Cellulite Cream.

FREQUENCY OF APPLICATION:

3 times a week, on alternate days.
