Description

This cosmetic consists of a synergy of active ingredients consisting of Aloe extract, a vegetable tensor derived from wheat proteins and Beta-Lactine globulin derived from milk. These active ingredients, thanks to the considerable contribution of vitamins and amino acids, exert a tensing effect, smooth and nourish the skin, regenerate and restructure it. The vegetable tensor derived from highly purified Wheat Proteins is then able to bind tightly to the epidermal surface, forming a cohesive and elastic film that restructures the skin surface. In this way the number and depth of wrinkles in the eyes and mouth are very visible.

How to use: after having cleansed and toned the face, it is advisable to apply a few drops of serum once or twice a day, gently massaging and tapping until completely absorbed. If necessary, apply a thin layer of cream. Also try on the neck which, after each application, appears more toned.
