ManufacturerIschia Le Terme della Bellezza

Description

Emulsion rich in moisturizing and nourishing factors, such as plant collagen and oenothera oil, skilfully mixed with mineral salts contained in thermal water, moisturizes, nourishes and levels small wrinkles, as well as preventing the formation of others in the eye area , where the skin is thin and delicate, therefore more sensitive to the factors that cause the signs of aging. It reassures skin tissues and improves elasticity, giving an immediate sensation of softness and silkiness.

Units in box: bottiglia
