ManufacturerIschia Le Terme della Bellezza

Description

A delicate mask with a nourishing and cleansing effect capable of eliminating the signs of stress, tiredness and pollution. It takes advantage of the cleansing active ingredients of clay, a precious natural remedy that “sucks up” the toxins through its absorbing power. It acts mildly without drying up and crumbling. Gives the skin softness and brightness as a result of its active ingredients such as equisetum and Aaron’s beard mixed with **thermal water**. Its delicate composition makes it useful for all skin types, from the most fragile and delicate to the less sensitive ones. Apply uniformly on the face, leave in for about 10 minutes, then remove with tepid water and dab with thermal toner.

Units in box: vaso
