### Description

Multiactive day cream suitable for all skin types that require a special and deep moisturising action. The Karité Butter protects the skin from harmful external agents. After the first few applications the skin appears relaxed, luminous and richly moisturised.

**Instructions for use:** suitable for all skin types. Every morning, after carefully cleansing and toning the skin, apply the cream to face and neck, gently massaging until it is completely absorbed. Its soft and velvety texture is easily absorbed and makes it an ideal base for make-up.
