ManufacturerIschia Le Terme della Bellezza

Description

The perfect combination of thermal water and the functional substances contained in the formula, such as: bioflavonoids, algae, centella asiatica, carnitine, caffeine, panthenol, essential oils of lemon, mint, camphor, cinnamon, cloves, rosemary and extract of orange, allows a natural recall from the tissues of excess liquids that are present in the first superficial layers of the skin. Apply on the affected parts, massaging gently with circular movements, until the product is completely absorbed.
