ManufacturerIschia Le Terme della Bellezza

Description

Cream with a very delicate texture, specific for the treatment of chapped hands. Designed for hand and nail care. Rich in active ingredients, such as shea butter, panthenol and glycerin, expertly mixed with thermal water rich in precious mineral salts. Prevents redness and irritation caused by atmospheric agents. It carries out an intense nourishing, protective and restructuring action. It exerts an intense "velvety effect" making the skin soft and supple. Quickly absorbed product that protects your hands like a "glove" for the whole day. Apply a small amount of product and massage carefully until completely absorbed.
