Manufacturer [Ischia Thermae](#)

Description

The offer includes:

The particular mud, original of the island of Ischia, supports the natural process of exfoliation of the skin, removing dead cells and impurities from the skin surface. The special formulation ensures that the mud, together with its precious exfoliating properties, acts as a stimulant of cell renewal and microcirculation. It has a moisturizing and firming action. It prepares the skin to absorb subsequent treatments better and more quickly.

Supplied with the practical sauna-effect trousers, to enhance the effectiveness of the mud and as a practical cleaning element. Sludge container suitable for bain-marie heating.

SKIN TYPE

All skins

APPLICATION

Preferably in the morning: after bathing or showering, apply the mud on the dry skin of the problem areas. Allow to dry for 10-15 minutes. To enhance effectiveness, use sauna-effect pants. Rinse thoroughly with warm water. Continue with the application of Anti-Cellulite Cream.

APPLICATION FREQUENCY:

3 times a week, every other day.

- Thermal Cellulite Massage Cream The massage using Thermal Cellulite Massage Cream performs a draining action helping to reduce the "sponge" effect in the tissues that retain water. The regular and systematic use visibly improves the treated areas, the contours of the body appear smoother, toned, tense and modeled.

APPLICATION

In the morning, apply the cream on dry skin and massage until completely absorbed (avoid or touch only the parts with possible varicose veins and / or capillaries). For a more effective result, prepare the skin with Thermal Mud Cellulite Treatment according to the application instructions.

- Practical sauna-effect trousers, to enhance the effectiveness of the mud and as a practical cleaning element

- Anti-cellulite treatment vials
