Description

Moisturizing, refreshing, soothing, balancing stabilizer for make-up.

Due to the essential components of the thermal water, the spray is versatile and easy to use: suitable for all skin types and conditions thanks to its balanced ionic composition. Refreshing in hot weather, tones and moisturises the skin. Soothes and rebalances the skin after shaving. May be sprayed on the face as a makeup fix before going out. Lightly moisturising and easily absorbed by irritated skin. As a stabilizer after the make-up. For in-depth care of face and neck, use daily, spraying after cleansing and before applying facemasks or creams.

Units in box: Flaconi
