Description

It has a volumizing, elasticizing, firming and firming action. Contains glycerin, volufiline, collagen, hyaluronic acid, evening primrose oil, sweet

almond oil, vitamin E. **Volumizing action:** thanks to the volufiline, which stimulates the increase in fat, fills and increases the volume of the breast and the circumference. **Elasticizing action:** the vitamins contained in the formula strengthen the cell membranes giving nourishment and hydration. **Firming action:** acts on the skin structure and firms the tissues, increasing their firmness and tone. **Tensor action:** wraps the part in a soft film that visibly improves its appearance. The breast appears compact, toned and with more rounded and harmonious shapes. It is recommended for all those women who have small or empty breasts and for those who want to improve their appearance. How to use: apply daily morning and evening on the entire surface, avoiding the nipple, with a light circular massage from the base upwards.
