Description

(HYALURONIC ACID MASK).

The presence of Hyaluronic Acid in combination with extraordinarily active ingredients ensures the success of this delicate and rapidly absorbed mask. This product is designed for anti-aging treatment. Its frequent use is recommended to prevent skin dehydration and premature skin aging.

How to use: after cleansing and toning, apply a few drops of Soft or Strong Filler over the entire area to be treated, until the product is completely absorbed. Spread a generous layer of Hyalu Mask and leave it to act for 15 minutes. Remove residues and apply Damian Day Anti-Age Cream.
