Description

HYDRA CREAM

Multiactive day cream suitable for all skin types that require a special and deep moisturising action. After the first few applications the skin appears relaxed, luminous and richly moisturised. **Instructions for use:** suitable for all skin types. Every morning, after carefully cleansing and toning the skin, apply the cream to face and neck, gently massaging until it is completely absorbed. Its soft and velvety texture is easily absorbed and makes it an ideal base for make-up.

ANTI-AGE CREAM

Particularly suited for mature skin in need of a boost, delaying the ageing process. Also excellent for impure/combination skin. Has a deep nourishing, moisturising and energizing effect, restoring natural skin balance. The cream provides an effective contrast to the damage caused by elements responsible for skin ageing and keeps make-up from penetrating the pores, providing a durable, luminous effect.

Instruction for use: we suggest after cleansing the skin spread a veil of cream on face and neck until cream is completely absorbed.

ANTI-AGE EXTRA FILLER

Medium viscosity Hyaluronic Acid Gel with deep moisturising properties, eliminates signs of fatigue and dehydration and expression wrinkles. A lack of hyaluronic acid (one of the most important component of a body's connective tissues) causes skin weakening and loss of pliability and tonicity. Other ingredients, such as Aloe Vera and Asiatic Pennywort tonify, soften and invigorate the skin, providing a reepithelizing and vascular protective effect.

Instructions for use: we suggest after cleansing and toning the face, to apply a few drops of the product, delicately patting until it is completely absorbed. Complete your daily treatment with Anti-Age Cream.
