ManufacturerIschia Le Terme della Bellezza

Description

We turned to nature for help and put its secrets into this cream, utilizing the most modern discoveries in cosmetic science. This cream is specifically made to tackle the reddening of fragile and delicate skin with rosacea problems. The **thermal water**, with its particular moisturising and nourishing properties, combined with active anti-reddening ingredients such as **allantonin, escine, asian centella and vitamin E**, develops an intense lenitive soothing and regenerating action, increasing the effects of the product, making it refined and efficient.
