Description

THE GOAL: daily anti-aging ritual for a more beautiful, luminous and youthful skin. It gives an immediate sensation of hydration and smoothness and thanks to the richness of functional substances it exerts an important soothing action.

FEATURES

Based on:

> **BIOLOGICAL EXTRACT OF WHITE GRAPES:** counteracts skin aging thanks to its antioxidant properties, grapes also have an astringent and revitalizing action, able to reduce the appearance of dilated pores and refine the skin texture.

> **CALENDULA EXTRACT:** it is one of the most used medicinal plants in the cosmetic field, especially for its anti-redness and soothing properties and for its ability to promote the regeneration of the epidermis and dermis. Calendula extracts also improve skin hydration and stimulate blood circulation in the skin, making the skin more elastic and therefore more resistant to mechanical and chemical irritation.

> **GLYCERIN:** represents the most widely used humectant in the cosmetic field and is well tolerated by the skin. It has an excellent moisturizing and plasticizing activity on the epidermis.

> MICROSPHERES OF HYALURONIC ACID: these are microspheres of hygroscopic material, precisely hyaluronic acid. These spheres are first dehydrated and then rehydrated on the skin. This rehydration process causes an increase in volume proportional to the ability of the spheres to retain water. These hyaluronic acid microspheres have the same action as the components used in injections and produce rapid smoothing of deep wrinkles.

> ALMOND OIL: rich in unsaturated and polyunsaturated fatty acids, it has an emollient and nourishing action, ideal for treating the driest skin, preventing wrinkles and skin aging. Elasticizing, it helps improve skin tone. It also has soothing and softening properties. METHOD OF USE After cleansing and toning, apply to the face and massage gently until completely absorbed. Do not rinse.
